OBJECTIVE

As a former businessman with a strong background in business education, I am embarking on an exciting journey to transition into the realm of data expertise. My goal is to leverage my diversified experience and extensive capabilities to craft robust and innovative solutions that address the evolving needs of the data industry. I am a lifelong learner with a profound passion for numbers, and my commitment to continuous growth drives me to embrace new challenges and push the boundaries of technology.

Having recently acquired the CompTIA A+ and Network+ certifications, I have only scratched the surface of my potential. In line with my aspirations, I have outlined a comprehensive plan to enhance my skillset and bolster my qualifications. This plan includes obtaining the CompTIA Security+ and Linux+ certifications. I've also set my sights on achieving the AWS Cloud Practitioner certification before pursuing the Solutions Architect certification. I am devoted to expanding my skillset and ensuring that I am well-prepared to tackle the challenges and opportunities that lie ahead in the ever-evolving world.

SKILLS

- AWS
- SQL
